

Programs to help you save energy and money!

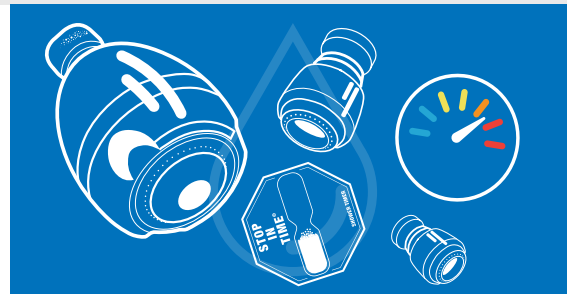

Rebates and Savings

Minnesota Power offers a variety of rebates on energy-saving technologies including lighting, appliances, and heating and cooling systems. Check out www.mnpower.com/Rebates to see a complete list of our current rebate programs.

Water Savings Kit

Get your FREE energy- and water-saving kit to help you significantly reduce your water usage where you use it most. The kit includes a water-saving showerhead, two faucet aerators, shower timer and water temperature gauge, along with additional information for saving energy and water. You must be a Minnesota Power residential customer with an electric water heater to be eligible to receive a Water Savings Kit. Order your kit at www.mnpower.com/WaterKit.

Refrigerator and Freezer Recycling

Do you have an old, working refrigerator or freezer sitting around wasting energy? We'll pick it up for free, recycle it, and give you a \$50 reward—it's that easy! You can also recycle a second refrigerator or freezer for an additional \$35 reward. Save energy, benefit the environment, and get a reward. Learn more at www.mnpower.com/RefrigeratorRecycling.

Free Home Energy Analysis

A Home Energy Analysis (HEA) can help you determine how you use energy and what you can do to get the most for your energy dollar. An experienced energy professional will visit your home to help you identify ways to save energy and install energy-saving products, all at no charge to you! Learn more or sign up at www.mnpower.com/HEA.

New Construction Energy Efficiency Program

Thinking of building a new home? Minnesota Power's New Construction Energy Efficiency Program works in partnership with homeowners, builders, architects, suppliers and manufacturers to provide the most up-to-date energy-efficiency building practices. The New Construction Energy Efficiency Program provides a variety of rebates for energy efficient upgrades. For more information visit www.mnpower.com/RNC.

Business

Count on us for the expertise and tools to help you identify and reach your energy-saving goals. Save energy and build your business by using the tools and incentives available through Minnesota Power's commercial, industrial, and agricultural energy conservation programs. Businesses big and small can save! Learn more at www.mnpower.com/Business.

Check out these other programs and services from Minnesota Power!

MyAccount

MyAccount is a free online tool that can help you monitor and track your electric usage. You can view your energy usage to find out when you're using the most electricity, set energy markers to note events or upgrades that may impact your energy use, and set threshold alerts. You'll also be able to view and pay your bill, set billing options and access forms, tools, and information. Get started at www.mnpower.com/MyAccount.

Electric Vehicles

Electric vehicles (EVs) are gaining traction. Rapidly improving technology, declining costs, stylish details, and more convenient options for charging are helping to put more of them on the road. We offer discounted electricity rates for residential and commercial customers charging an electric vehicle. For more information visit www.mnpower.com/EV.

Renewable Energy

Minnesota Power offers a variety of programs, including rebates, for customers who are interested in solar energy for their homes and businesses. For more information on how you can support a cleaner, lower-carbon energy future, visit www.mnpower.com/RenewableChoices.

Assistance Programs

Minnesota Power offers the Customer Affordability of Residential Electricity (CARE) program, which provides income-qualified households a discount on monthly electric bills. If you are LIHEAP-approved (Low Income Home Energy Assistance Program) you are eligible for a CARE program electric bill discount. Learn more about CARE and Minnesota Power's other assistance programs by calling us at 1-800-228-4966 or visiting www.mnpower.com/Assistance.
